UNLOCK YOUR TRUE POTENTIAL

Take your gaming to the next level with PNY's VelocityX Overclocking Software. Now, more than ever before, you have the power to take control of your PNY graphics card and maximize its performance. VelocityX leverages NVIDIA GPU Boost Technology to monitor clock, temperature, speed, and more, ensuring that your graphics card is always running at optimum level. What's more, VelocityX also allows exciting new levels of customization, so you can be sure you're always getting the most out of your gaming experience.

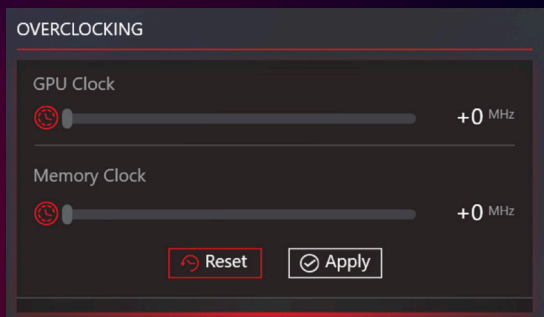

REAL-TIME MONITORING

PNY's VelocityX Overclocking Software allows you to monitor critical stats, like Core Clock, Memory Clock, Core Temperature, Fan Speed, GPU Clock, GPU Loading, and Memory Loading in real time, generating invaluable intel that you can leverage to further fine-tune and customize your settings to master your system and take your gaming to the next level.

CUSTOM OVERCLOCKING

Take control of your gaming experience with VelocityX's Overclocker. With gaming, even the smallest details make all the difference. VelocityX was designed to give you that extra edge by giving you the power to customize GPU Core Clock and Memory Clock. VelocityX's customization features let you find the perfect balance of performance and efficiency for every application.

TOTAL FAN CONTROL

Temperature management is crucial for graphics card performance. VelocityX's Fan Control lets you fully customize a predefined fan speed curve, enabling you to find the perfect balance between performance and temperature when overclocking your PNY graphics card. It's time to unleash the true potential of your graphics card and achieve the optimal gaming experience.

MULTIPLE USER PROFILES

Have you isolated the perfect balance of performance and efficiency for your PNY graphics card, or do you want to save different sets of custom settings for future use, for different applications? VelocityX allows you to save up to five custom profiles that you can revisit at any time, without the frustration of trying to duplicate that perfect combination of customization.

CHOOSE YOUR COLOR

VelocityX empowers you to fully customize the LED lighting on select RGB-enabled GeForce® RTX™ 40 Series graphics cards. Select from a wide spectrum of colors, as well as between multiple lighting modes, and bring your graphics card, and even your rig, to new heights.
